

# MAGIC IN THE SKY LIGHTING

## 2012 Lighting Catalog

Worry Free LED's

### ALL YOU NEED TO KNOW ABOUT OUR LIGHTS:

Each strand is full wave, UL rated, dimmable and can be used on a number of light controllers. Bulbs are sealed and the socket in a molded husk construction that seals the lead wires in as well. They are rated at 100,000 hours of life. The wire is 22 Awg gauge. Bulbs are spaced 4 inches apart. The lead and tail are each 6 inches.

#### Regular Strand lengths are as follows:

35ct 11.33 feet bulb to bulb, 12.33 feet total  
50ct 16.67 feet bulb to bulb, 17.67 feet total  
70ct 23.33 feet bulb to bulb, 24.33 feet total  
100ct 33.33 feet bulb to bulb, 34.33 feet total

#### 70ct Icicles Strands:

2in bulb spacing on drops, 6in drop spacing;  
drops are 3, 5, and 6 light per drop. 7 feet bulb  
to bulb, 8 feet total

*COLORS:* We have done our best to display as accurately as possible the colors of the products shown. However, because the colors you see will depend on your monitor or printer, we cannot guarantee that your display of any color will be accurate.

Magic in the Sky Lighting is pleased to offer several exciting new additions to our line in 2012 including:

G12 Raspberry Series

Giant Christmas Trees

Pink and Teal Color Options

C7 twenty-five count stringers

## A Word on Color

We will be carrying three versions of white for 2012:

Pure Winter White

Same blinding bright white we carried in 2011

Diamond Warm White

Formerly called Warm Candle White in 2011

Hill Country Christmas

New for 2012 this "antique" white has a touch of golden hue

Additional colors include:

Rudolph Red

Grinch Green

Blitzen Blue

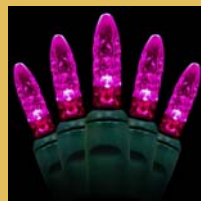

Yuletide Yellow

Pumpkin Orange

Magical Multi

Princess Pink

Powder Blue

Sugarplum Purple

## M5 Series

*From wrapping tree trunks to general application, this is our most popular lens.*

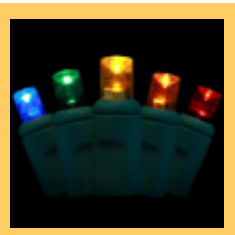

## White Wire Series

*Many have requested white wire for special applications and we are happy to offer our most popular colors in 50, 70, and 100 count on white wire.*

## C6 Series

*This larger lens makes for beautiful coverage of canopies and hedges.*

## 5mm Wide Angle Series

*These “bullet” lenses, about the size of a pencil eraser, are perfect for outlining cutouts and lining edges. 5mm’s create a more concentrated point of light.*

## G12 Raspberry Series

*Achieve an uniquely elegant look on small trees, floral arrangements, and novelty items with the globe shaped lens that closely resembles the fruit it’s named after.*

## C7 Series

*The nostalgic look of our largest lens, these have a single LED for softer illumination delivering a good performance for lining buildings economically.*

## Icicle Series

*Icicles feature 6” drop spacing; drops are 3, 5, and 6 light per drop in that order with 2” bulb spacing on drops.*

# Giant Christmas Trees

*These durable faux Christmas Trees can be set-up by a crew of two and a socket set. Steel rings create the support structure with PVC branches hanging from the grommets. This is a custom item requiring freight shipping to your address. Please call 210-267-5371 to discuss delivery costs or options to pick-up in San Antonio, TX.*

## All Trees are Without Lights

Height (ft)	Branches	Shipping Volume (ft <sup>3</sup> )	Weight (lbs)
40	440	258	1631
